PRESENTS

IEEE

A TWO DAY ONLINE LECTURE SERIES ON
"REGRESSION AND OPTIMIZATION TECHNIQUES"

REGISTER HERE

9 & 10 MAY | 12.00 PM

LET'S TALK ABOUT OPTIMIZATION IN MACHINE LEARNING!

Regression and optimization techniques are essential tools in data science and machine learning. Regression techniques model the relationship between variables, while optimization techniques find the optimal solution to a problem. This two-day talk will help us understand to enable accurate and robust modelling of complex data sets.

OUR SPEAKER

Snehanshu Saha,
Ph.D (Univ. Of Texas- Arlington)

Professor, CS&IS and Center Co-Ordinator- APPCAIR, BITS PILANI K K Birla Goa Campus

Dr Mohan S. G.
HoD, ISE Dept. NMIT

Archana Mathur
IEEE Student Branch Counselor

Jahnavi Reddy
Student Co-ordinator

Agniv Pramanick

A Story behind

The story began with ELECTRIC
Yes ELECTRIC !

ELECTRIB acronym stands for Electric Bike and true to its name ever since inception, the company has focused on enabling transition to sustainable energy sources. Energy storage technology has been a key area of focus since the inception and the Company has developed strong expertise in Lithium battery technology. The company management team brings significant experience from academia and the energy industry.

The company is in the business of manufacturing electric scooters and motorcycles under the brand "ELECTRIB" and high-performance Lithium batteries under the brand "Electrically efficient". The company has set up a dedicated EV and battery manufacturing unit measuring over 1 lakh sqft and having a dedicated facility for R&D for EV powertrain development and testing. PURE is currently one of the leading EVsW brands in India and also having a dominant position in exports to South Asian countries Nepal and Bhutan! The company is focused on building products beloved by the mass consumer and building a trustworthy brand name in EV.

JOIN OUR BUSINESS

Our goal is to explore every part of
India.
Be a part of future business expansion
